The Working Group met to consider the revised Cuban Contingency Paper. Mr. Hyland asked for the Group's comments on the paper so that it could be put in its final form. After a discussion of the paper, Mr. Hyland decided that he would redo the first part of the paper and circulate his draft to the Working Group members. He plans to have the paper in finished form by Friday, 7 May. According to Mr. Hyland there will be a meeting of the National Security Council on Wednesday, 12 May, but it will be primarily on Africa. It is possible, however, that the subject of the Cuban Contingency Paper could be raised at that meeting.
